SKF HUB BEARINGS

In Stock Now, ALL LOCATIONS!

As the world's largest manufacturer of bearings and seals, SKF Hub Bearings are engineered to OE specifications with enhanced performance built in. Designed to last up to three times longer than competing options and featuring patented GHG grease technology, it delivers durability you can trust—backed by a 5-year, 60,000-mile warranty.

POWERSTOP

Brake Pads

New Lower Price! \$36.99 Bundle Pricing!

Better Braking - Thermal scorched for a faster break-in as well as chamfered and slotted to ensure noise-free braking.

Dependable Performance - Positive mold technology delivers consistent wear and performance while the powder coated backing plate resists rust and corrosion.

Easy Installation - Includes premium stainless-steel hardware for hassle free installation.

**Ask your Sales Rep about Bundle Pricing!*

- Unmatched Catalytic Converter Coverage
- Hard-to-Find Units
- Late Model Experts
- First-to-Market Prototypes

CATALYTIC CONVERTERS

BUY DAVICO. GET A FREE RUN RITE KIT!

Sledgehammer Decarbonizing Run-Rite kit- This LOW VOC Compliant aerosol induction cleaner is designed for fast service times and is safe for Catalytic Converters.

HUB ASSEMBLIES

- 1 Upgraded ABS Sensors** – Improved harness quality increases strength and resistance to thermal fatigue.
- 2 Pre-Lubricated Bearings** – High-temperature grease protects internal components and provides noise-free, smooth operation.
- 3 High-Carbon Steel** – Enhanced steel alloys are engineered to improve load bearings capabilities and durability.

LOADED STRUTS

Endurance tested to ensure optimal performance & long life. Precision OE technology, design and hardware. Each assembly contains 100% new componentry including new springs, struts, mounts & hardware. Restores vehicle to ride “as good as new”!

PREMIUM CHASSIS

- ✓ **Ultra-Guard™ corrosion coating prevents build up of harmful contaminants**
- ✓ **Pre-loaded with high-quality lubricating grease**
- ✓ **Improved boot design and material with all-season performance**
- ✓ **Coated hardware included for quick install**

CHASSIS PARTS

Experience faster and easier installs with **Mevotech Labor Saver™ Chassis Parts**. Spend Less time in the bay with innovative part components, added hardware and installation tools included in the box!

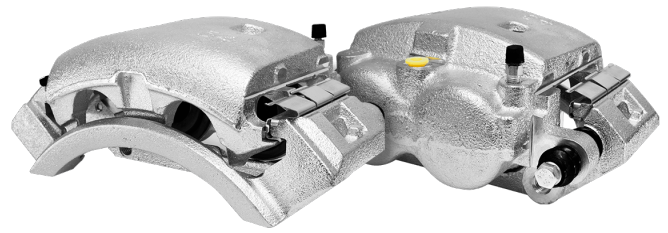

Reinforced Design – Voids are filled-in for optimal assembly strength and engineered for increased durability for all service conditions!

NEW

BRAKE CALIPERS

Stocked in all locations!

- ✓ **Manufactured to the highest and are guaranteed to meet or exceed the OEM's strict requirements for performance, drivability, and durability.**
- ✓ **100% High/Low pressure tested to ensure reliability and long-lasting performance.**
- ✓ **Rust protection coating – Powder coated red/black to match OEM or Zinc Plated.**

Brake Pads

PROMO PRICING!

\$34.99 for ALL PART NUMBERS!

*Excludes Severe Duty, Heavy Duty, and Police Pads

MOOG®

CHASSIS PARTS

MOOG is the Problem Solver!

By constantly introducing design enhancements that extend product life or simplify installation and replacement, MOOG has earned its reputation as the chassis industry's problem solver for over 100 years. Excellence never quits with MOOG Chassis Parts!

MONROE®

SHOCKS & STRUTS

Featuring a vehicle-specific design, Monroe® Quick-Strut assemblies are fit checked, ride-tested and engineered to restore factory ride height and ride performance.

Designed to deliver consistent performance, Monroe® Restore™ shock absorbers provide a high level of handling and control while filtering out noise, vibration and harshness

BRAKE PADS

In Stock Now, ALL LOCATIONS!

Most brake pads fail because the friction material separates from the backing plate due to rust. **NRS Brake Pads eliminate that problem** with a patented galvanized steel backing plate and a **mechanical bond**.

What Sets NRS Apart in the Bay:

- Patented Mechanical Bond – Friction material is mechanically locked to the plate, not glued.
- Galvanized Steel Backing Plates – Superior corrosion resistance, even in harsh climates.
- No Delamination – Eliminates pad separation that causes noise and premature failure.

UPCOMING PRODUCT EXPOS!

Talk the latest trends and products of the Automotive Industry presented by the Industry Leading Brands! Food and beverages served all evening! More than 50 manufacturers will be present with new products, contests, door prizes and more!

UPCOMING TECHNICIAN TRAINING

General Motors Regulated Voltage Control Charging Systems

This class covers the most common charging system used on GM vehicles since 2002 and is still used today on most GM vehicles. Both the Stand Alone (SARVC) and full Regulate Voltage Control (RVC) systems are covered. Understanding how the Body Control Module and the Powertrain Control Module work together to control the Alternator is critical when diagnosing charging system concerns on these GM systems.
