MotoRAD®

Thermostats & Integrated Housings

MotoRad integrated thermostat housings differ from traditional thermostats. They offer an all-in-one, bolt-on solution with the thermostat and housing integrated into one unit. This is a growing segment of thermostats with a large number entering the replacement window.

Motorad's Fail-Safe Thermostats automatically lock the valve into a wide-open position to allow coolant to circulate freely. This allows a deteriorating cooling system to activate a precision engineered piston.

AUTOMOTIVE LIGHTING

Light the way to new business and grow profits with the power of the PEAK® brand offering PEAK® lighting. PEAK® provides the widest branded offering in the industry, with 98% coverage of all VIO's since 1958!

- OE Quality to give your customers the BEST visibility on the road!
- Lighting assortment available for top selling capsules or customize as needed for your customers.
- Durable and long-lasting bulbs.

TECHNICIAN TRAINING!

ELECTRICAL THEORY AND TESTING

To service any system on today's vehicles, a Technician must understand electrical operation, wiring diagram interpretation and electrical testing. This course is designed to provide the fundamental skills and knowledge needed to perform electrical testing.
