DENSO

O2 SENSORS, IGNITION COILS, & ALTERNATORS

DENSO O2 Sensors are made with Stainless Steel Housings to resist corrosion and contamination with a rugged, watertight body. With DENSO's exclusive design, the Aluminum-Oxide trap layer prevents damage to the platinum electrode.

Each DENSO Ignition coil is designed and optimized for its specific application, then continually improved by DENSO's global engineering team for maximum performance.

DENSO Alternators are original equipment on many of the world's top production cars! Bearings are validated to OE standards and loaded with premium OE-standard lubricants. The alternator is no place to cut corners.

BCA HUBS

- Over **90%** of BCA hubs are the same product supplied to the **OE!**
- Each BCA Hub goes through rigorous testing to ensure the part performs to the highest of standards
- Application-Specific Engineering Designs
- BCA is recognized as a leader in engineering excellence and quality products

Tech Tips:

SCAN ME

POWERSTOP

EVOLUTION PLUS

CERAMIC DISC BRAKE PADS WITH HARDWARE

- **Better Braking** - Thermal scorched for a faster break-in as well as chamfered and slotted to ensure noise-free braking.
- **Dependable Performance** - Positive mold technology delivers consistent wear and performance while the powder coated backing plate resists rust and corrosion.
- **Easy Installation** - Includes premium stainless-steel hardware for hassle free installation.

NEXT GEN

- Next Gen brake pads are a super-premium friction offering for luxury and performance passenger cars.
- Next Gen Euro addresses the noise and dust complaints associated with European vehicles, without sacrificing performance.
- All Powerstop products have the quality and benefits you know and trust, resulting in no compromise and no come-backs!

HITACHI *Engine Management*

All Hitachi MAF Sensors and Ignition Coils are created with High Quality Components for Enhanced Durability!

IGNITION COILS

Design flexibility allows for a wide range of applications. Efficient spark energy delivery. Gold plated connectors extend product life!

MASS AIR FLOW SENSORS

Precise machinery – Provides superior durability and minimal current fluctuation. Assists engine efficiency and fuel mileage!

Signs to Service Ignition Coils & MAF Sensors:

- ✓ Stuttering during acceleration
- ✓ Vehicle stalling or complete shutoff after stopping
- ✓ Engine stalls while decelerating to stop vehicle
- ✓ Unstable idling or engine shutoff

50 Warehouse locations in PA and NJ!
One near you **eapw.com!**

MacPherson HUBS

MacPherson Hub Assemblies are designed, manufactured and tested to exceed the quality and performance your customer's demand!

High-Carbon Steel

Enhanced steel alloys provide improved load bearing capabilities and durability

Premium Seals

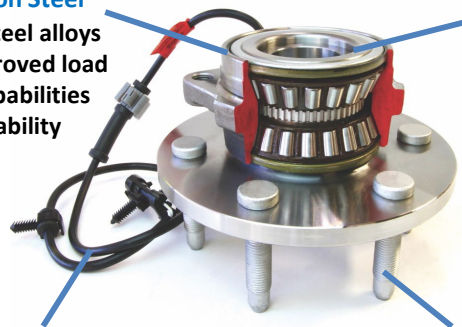

Improved stainless steel seals protect bearings and internal components from contamination

ABS Sensors

Improved ABS harness shielding increases strength and resistance to thermal fatigue

Wheel Studs

New, premium grade mounting hardware ensures a complete repair and safe operation

Water Pumps & Serpentine Belt Kits

- Every Gates automotive water pump is constructed with premium alloy materials.
- Backed with a 100% functional test of seals, bearings, and leakage on both the casting and assembled water pump.

- Nothing beats complete. Gates Complete Kits offer reduced comebacks and warranty returns & includes all necessary OE-quality parts for a complete system restoration.

- Packed in a tray to endure part quality for the ultimate complete repair.

UPCOMING EVENTS

SPRINGFIELD TRADE SHOW

September 27th, 2023

6:00pm-8:00pm

Springfield Country Club

400 W. Sproul Rd.

Springfield, PA 19064

NEW JERSEY GOLF OUTING

October 10th, 2023

11:00am - 8:30pm

Blue Heron Golf Pines,

550 W. Country Club Drive

Egg Harbor City, NJ 08215

September Manufacturer Price Updates

DEKA - 9/1

WAI - 9/4

MotoRad®

Thermostats & Integrated Housings

MotoRad integrated housing thermostats differ from traditional thermostats. They offer an all-in-one, bolt-on solution with the thermostat and housing integrated into one unit.

This is a growing segment of thermostats with a large number of entering the replacement window.

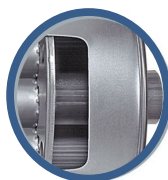

WALKER

MUFFLERS & CATALYTIC CONVERTERS

EXHAUST SYSTEMS

QUIET-FLOW STAINLESS STEEL MUFFLERS

The only broad market muffler with 100% stainless steel - Stainless steel construction delivers longer life expectancy for durability versus aluminized mufflers. Built to last with durable OE-style single-shell body to provide a longer service life.

DIRECT-FIT CATALYTIC CONVERTERS

Easy to install - Bolt-on replacement solution with OE-style hangers, brackets, routings, and heat shields for easy installation and doesn't require fabrication or welding.

Upcoming Technician Training

BODY CONTROL ELECTRONICS DIAGNOSIS

This course will first focus on understanding electrical theory as it applies to automotive systems including components such as motors, solenoids, actuators, and their control circuits. We will then use that theory to diagnose complex systems through real-world case studies.
