

mpa QUALITY-BUILT® **BRAKE PADS**

NEW PRODUCT **Best New Pad on the Market!**

IN STOCK AT ALL LOCATIONS!

\$27.99 for ALL Part Numbers!

Quality-Built Brake Pads provide optimized stopping power in all conditions. **Application-specific pad formulas** remove the guesswork from pad selection by providing friction compounds engineered to restore like-new stopping power for every vehicle.

FEATURES:

- ✓ **Application-specific friction material**
- ✓ Low dust, low noise friction formulations
- ✓ **Multi-layer shims**
- ✓ **OE design slots** and chamfers
- ✓ **Stainless steel hardware** included as required
- ✓ **Precision cut backing plates** for hassle-free installation
- ✓ **Post cured and scorched** for easy bed-in
- ✓ Copper-free 2025 compliant formulations

UNITED MOTOR PRODUCTS

NEW PRODUCT

FEATURES:

- UMP specializes in Engine Management products.
- All products are built to **meet and/or exceed OEM specifications.**
- **Ignition wire & battery cables are made in USA.**
- **All products are warrantied throughout the USA** with an industry leading 5 year / 50,000-mile warranty.

TECHNICIAN TRAINING!

GDI IMPORT AND DOMESTIC OPERATION AND TESTING

Gasoline Direct Injection (GDI) has quickly become the standard fuel system. SIDI, GTDI, TFSI, and D4S are some of the different names used on GDI vehicles. This class will cover GDI on GM, Ford, VW, Audi, BMW, Toyota, and others. These vehicles use both low and high-pressure fuel systems. The high-pressure fuel systems can range from 500-3000 psi. Power controlled high voltage operates the fuel injectors. Mechanical and Electronic Returnless fuel systems are now used as the low-pressure feed into the high-pressure pumps. Solenoid and Piezo injectors, dual injection and more will be discussed. You'll walk away with a useful resource of knowledge, fixes, scan tool data, and scope patterns for immediate or future use.
